Project Title

Simple Café Website

Project Description

This project is about designing and developing a small website for a café. The website will show basic information such as what the café offers, its menu, and how customers can contact the café.

Project Goals

Create a simple and clean website

Make it work on phones and computers

Show café information clearly

Help customers find and contact the café

Target Users

Students

Workers nearby

Families and visitors

Pages Included

1. Home Page

Welcome message

Short description of the café

Popular food and drinks

2. About Page

Story of the café

What the café believes in

3. Menu Page

Breakfast items

Lunch items

Drinks and desserts

4. Contact Page

Contact form

Phone number and email

Café address

Website Features

Navigation menu

Mobile-friendly design

Footer with social media links

Simple buttons and effects

Design Style

Colors: Brown, cream, green

Font: Simple and easy to read

Layout: Clean and friendly
